## How To Change Thread attributes

alias name of  
structure

pthread\_attr\_t

(V)

structure variable

✓ pthread\_attr\_t attr (&v);  
for stack;

↳ default attribute values are  
(initialized)

pthread\_attr\_getstacksize (&v, &stack);

✓ printf ("%u", stack);

pthread\_attr\_setstacksize (&v, stack);

stack = 10000;

pthread\_t t1;

pthread\_create(&t1, &v, thread1, 0);

↓  
Thread created by considering  
new thread attribute value
